ALEXIS 1960

ALEXIS I. DU PONT HIGH SCHOOL
WILMINGTON, DELAWARE

FOREWORD

Until this year, Alexis I. duPont has been a comparatively small school, specializing in the quality, not the quantity, of education. This year we are in the process of expanding our school facilities so that we may maintain our high scholastic standing, while making this program available to a greater number of students.

As we seniors leave our Alma Mater and head in our various directions, we look back on this yearbook to remind ourselves of an important milestone in the history of the school. We were among the first to share in the advanced education techniques here, and we are now among the first to see our school grow larger to accommodate more pupils. We will always remember, as we leaf through this book, that we were a part of the "new" Alexis I. duPont.

1960 ALEXIS

EDITOR'S NOTE

The Yearbook Staff takes pleasure in presenting the 1960 "Alexis" to you. It is the story of progress and enjoyment. We hope this book will serve as a reminder of your high school days at A.I. in years to come. We also hope that you will appreciate, as I do, the tremendous amount of time and effort given by the "Alexis" staff and their advisor, in the preparation of this yearbook.

Enjoy the 1960 "Alexis" because it belongs to you, the student body of Alexis I. duPont.

DEDICATION

The Staff of the 1960 ALEXIS takes great pride in dedicating its yearbook to **MR. GEORGE SCHAEFER**. To us, the Senior Class, Mr. Schaefer has been a part of the new Alexis I. duPont. In his math classes we have struggled long hard hours to understand the new number concepts that he has endeavored to teach us. Since we were born two or three years too early, we were not able to start at the beginning and derive the full benefits of his mathematics program. However, as we present the 1960 ALEXIS, we have the satisfaction of knowing that Mr. Schaefer's ideas will live on at Alexis I. in the education of our younger brothers and sisters.

ADMINISTRATION & FACULTY

SUPERINTENDENT

I am sure we are looking forward to the completion of our present building program, which should bring us many needed facilities.

Just as "clothes do not make the man," neither does new building guarantee better education.

The program which is built around the new rooms and the auditorium will determine their value.

Our very competent staff will carry on a better program of instruction for our boys and girls in using the new areas.

May you as pupils re-dedicate yourselves to the proper care and respect for school property which is furnished for your use by our taxpayers.

We are deeply indebted to our Board of Education for their foresight in providing for the needs of our school community.

Dr. Thomas W. Howie
Superintendent

PRINCIPAL

Have you ever stood on a hill overlooking the city, noting the countless roof tops of buildings all seemingly alike? An occasional church spire or tall building will pierce the sky. This age dares you to be like the church spire or tall building rising above the monotony.

In this scientific era and machine age, conformity seems to be the keynote. And yet no age in history has offered greater opportunity to express individuality than ours.

Education is far more important today than ever before. It will be the key factor in determining the winner in our race with Russia. Yet the one outstanding difference between the educational systems of the two countries is our emphasis on the importance of the individual. Here boys and girls are not numbers but individuals to be developed into their best possible selves. Do you have the courage to avail yourself of this wonderful opportunity, to use this advantage?

Build thee more stately mansions, O my soul,
As the swift seasons roll!
Leave thy low unvaulted past.
Let each new temple, nobler than the last
Shut thee from heaven with a dome more vast,
Till thou at length art free,
Leaving thine outgrown shell by life's unresting sea.

A TRIBUTE TO

Mr. Walter J. Yingst has been at Alexis I. duPont for forty years. During this time he has contributed much to the growth of our school curriculum. In his classes he has set rigid standards in order to help us realize our potential. Over the years Mr. Yingst has kept abreast of ever-changing aspects of science so that his students may be informed of these new facts.

We, the Senior Class, pay a special tribute to Mr. Yingst as he takes leave of Alexis I. for retirement.

FOREIGN EXCHANGE STUDENTS

Left to Right: Ann Richards, Irene Holst, Marsha Richards.

Alexis I. duPont; I always loved schools. Maybe I was supposed to because my father is a school teacher. When I first came to this school (it was during the holidays last summer), when I saw the workers who were building our new auditorium, and when I saw Mrs. Benthall, I was sure that I would be fond of this school too. I wasn't wrong. What wonderful teachers you have here! I won't forget anyone of them. I love them as I love the students. It is a wonderful experience to be at such a school. I think that the friendliness of everybody makes me really feel at home in Alexis I. duPont.

Lukas Spinner
Exchange student from Switzerland

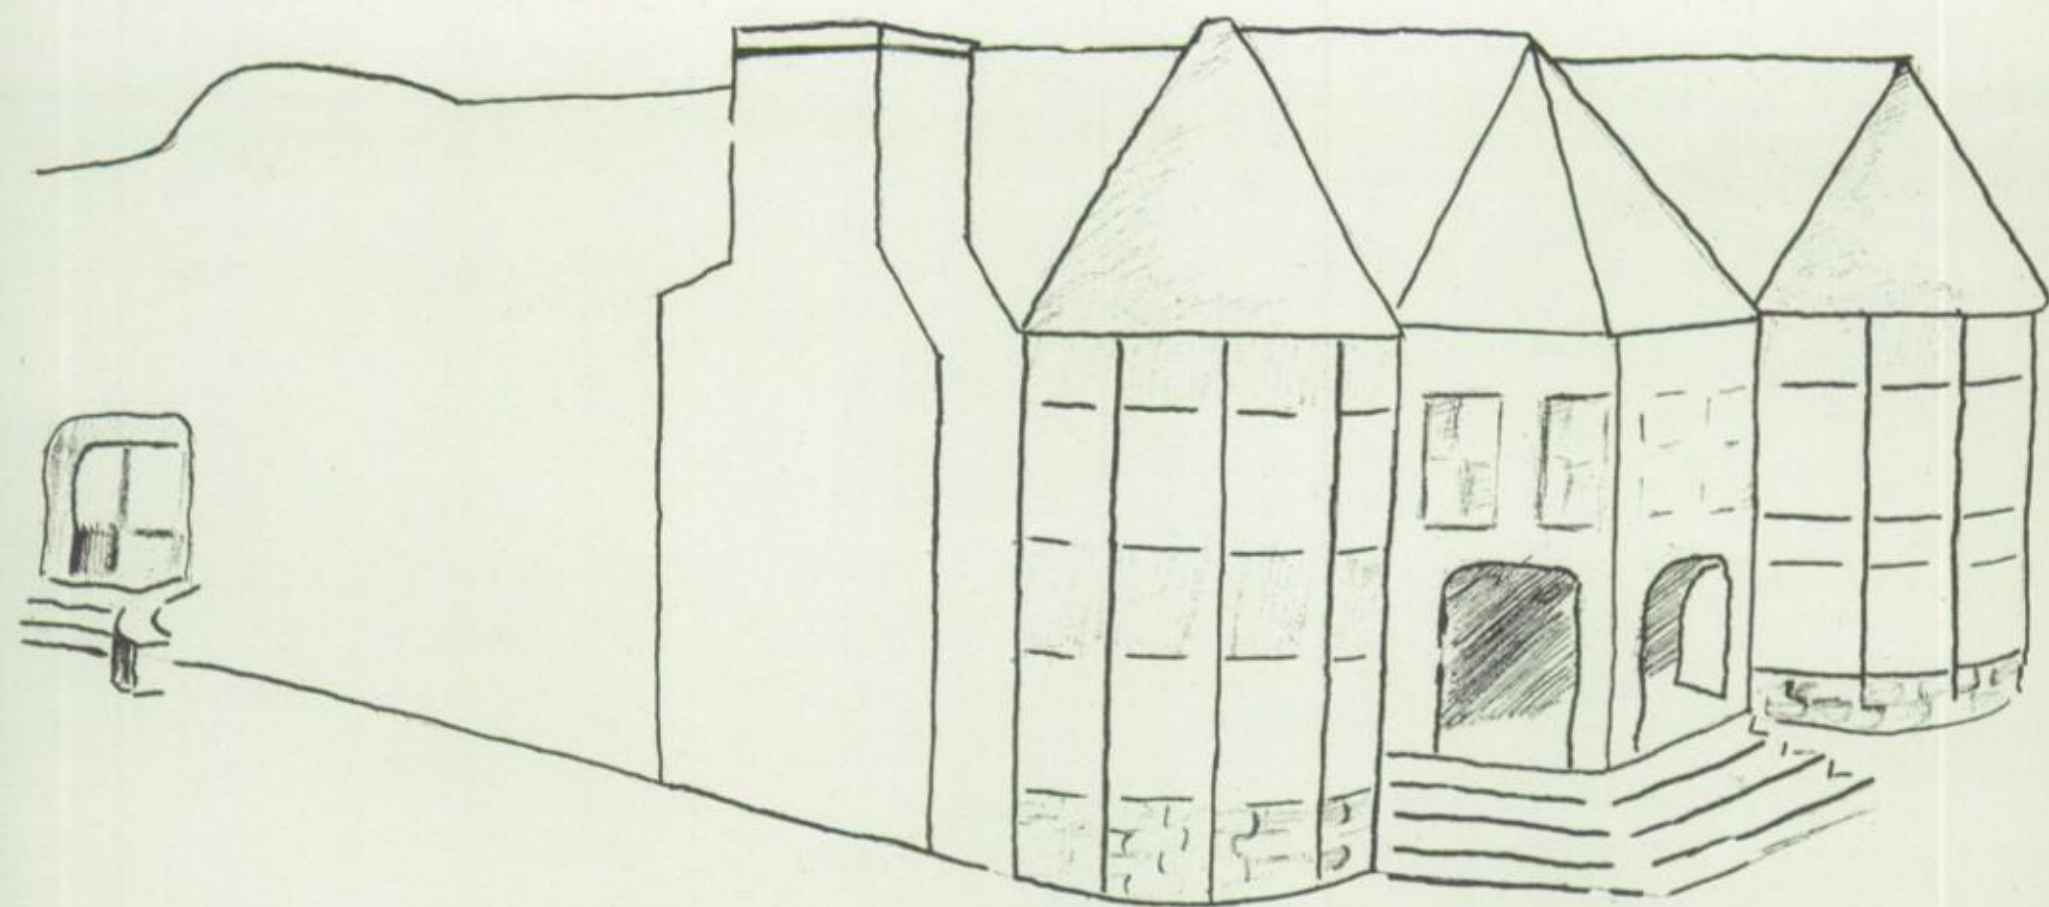

Sometimes I wish that I hadn't come to stay at A.I. for only one year but several; maybe two or three. It is a very nice school; in my opinion the best school an exchange student could ever have come to. The spirit and tone of the school is one of the biggest factors in giving me a very good impression of the United States to take home with me to Denmark. Everybody has been just wonderful and patient with me (oh, all my stupid questions). Especially I want to thank the family I am staying with for giving such a nice home, and everybody for giving me such a warm and good welcome. I certainly have enjoyed my year at A.I.

Irene Holst
Exchange student from Denmark

Left to Right: Lukas Spinner, Forrie Johnson.

Honeybell — ..

Never change; I love you as you are. I guess the reason we get along so well, (except usually) is because we're both the same; rotten. Remember the other 2 revolting conspirators. Remember our study hall discussions. Remember me as the other kleptomaniac. Remember the "things" we talk about. Save up your money for a sports car so I can ride in it. Love ya'

Janet

P.S. Kill all those people we're going to kill if you get a chance. Take care of your horses and junk and save ~~some~~ booze for me. Read alot of good books this summer and maybe you'll catch up with me. Don't mind this; I always write books.

Dee-
You tell dirty jokes-
That is quite true,
But I won't complain
Cause I tell 'em too.

Dee-
Dee-da-da-de-de to Dee.
No, really, but I can't think
of anything else to say.
Have fun this summer!

P.S. de-da-da!

Good luck with your jokes and and your books.
Some day write me a reading list.
When you get tired of Nucky,
you horses I'll take them
off your hands. '64

Best of luck
with all your
animals. Have a
good summer.

Dee-

lately?
Have fun and be
